

## APPROPRIATION MEETS DEFEAT

President Roosevelt's Battleship Programme.

DECISIVE VOTE IN HOUSE

Provision of Naval Appropriation Bill Authorizing Construction of Four New Battleships Beaten by a Large Majority.

Washington, April 16.—By a vote of 199 to 83 the house of representatives decided against the president's programme for four battleships and adhered to the recommendation of its committee on naval affairs for two vessels of that type. This result was reached after a debate which lasted for four hours, and was received with applause.

The entire session was devoted to a consideration of the navy increase provision of the naval appropriation bill. As this increase was provided in the last section of the bill, the measure was practically concluded with the disposition of the provision. The committee of the whole concluded its work and will report it to the house for a final vote on its passage.

The provision for battleships was the chief subject of interest, the committee's recommendation for two ships of that type prevailing by a decisive vote after a hard fought effort to increase the number to four.

The increase was opposed by Mr. Tawney, chairman of the committee on appropriations; Mr. Foss, chairman of the committee on naval affairs; Mr. Williams, the minority leader, and others and was advocated by Mr. Hobson of Alabama, who declared that in relation to the increase of old navies, four battleships would only keep the American navy abreast of other great navies. Mr. Longworth of Ohio in a vigorous speech told the house that the president was more interested in this increase than in any other question before congress and as practically all of them had in the last election declared that they supported him, this was a good opportunity to live up to that declaration.

An amendment by Mr. Tawney to reduce the number of new battleships to one was voted down by an even more decided majority than was Mr. Hobson's proposition for an increase to four.

A provision for two fleet colliers of 16 knots and of 12,500 tons capacity, costing \$1,800,000 each, was adopted. Amendments were adopted that one of the battleships and one of the cruisers shall be built in a navyyard.

The bill as it stands authorizes expenditures of \$107,873,000.

FRAMED THE QUESTIONS.

Neff and Thurston Prompted Congressman Lilley.

Washington, April 16.—The Lake Torpedo Boat company was placed in the attitude of a prosecutor of the Electric Boat company in the investigation now being conducted by a special committee of the house of representatives on charges preferred against the Electric company by Representative Lilley of Connecticut. This was brought out when Abner R. Neff, the Washington representative of the Lake company, and former Senator John M. Thurston, general counsel of that company, admitted that they had prepared most of the questions that had been submitted to the committee by Mr. Lilley to be asked the witnesses for the Electric company, as well as a number of statements that Mr. Lilley had presented to the committee.

Mr. Neff stated that the Lake company had data in its possession from which he framed a large number of technical questions that were asked the various witnesses, and that others had been suggested to him by rumors, newspaper articles, etc. He said he had conferred frequently with Mr. Lilley in the preparation of these questions and that Mr. Lilley had suggested various lines along which he wanted questions asked.

"Is it not true that substantially all of Mr. Lilley's formal statements to this committee have been prepared either by you or after consultation with you and Senator Thurston?" asked Mr. Howard.

"I should say that a greater portion of them had been."

"Is it not also true that substantially all the questions submitted by Mr. Lilley to this committee to be propounded to the various witnesses have been prepared either by you and Senator Thurston or after consultation between you with Mr. Lilley?"

"Practically so, yes," Mr. Neff said he considered it his duty to lend all assistance possible to the clearing up of the submarine situation.

PARADE OF BLUEJACKETS.

Five Thousand Men of the Battleship Fleet in Line.

San Diego, Cal., April 16.—A parade of bluejackets and marines landed from the American battleship fleet, 5,000 fighting men fresh from a cruise of more than 13,000 miles, marked the ceremonies of official welcome to the state of California. Sixty-four companies of sailors in their togs of the sea, with wide flaring trousers reefed down in canvas leggings, and sixteen companies of marines, soldierly and straight, formed this most notable of the navy's land display. The landing party, equipped as infantry, armed with Krags, in light marching order and with canteens filled, presented an imposing spectacle. The procession the men of the navy formed was more than two miles long. They marched from the water front to the city park over three miles of streets canopied with decorations which combined the red, white and blue of the nation and the gold and white of the state. San Diego took a holiday to see the martial pageant, and the sidewalks paralleling the asphalted roadways were crowded with a typical holiday throng. Their enthusiasm was explosive, the appearance of the bluejackets and marines calling forth long sustained cheering. At the city park the sailors passed in review before Rear Admiral Thomas, Sperry and Emery and Governor Gillette and his staff. A crowd of many thousands of people surrounded the grandstands.

Three thousand school children waving flags and banners were massed directly in front of the reviewing stand and their songs and cheers were one of the prettiest features of the celebration. Governor Gillette in a brief speech supplemented his words of welcome spoken on the quarter deck of the flagship Connecticut, and Rear Admiral Charles M. Thomas made formal response in behalf of the fleet.

Admiral Thomas then graciously accepted in Admiral Evans' behalf a golden key, symbolical of the freedom of the city. The token will be forwarded by Admiral Thomas to Admiral Evans at Paso Robles Hot Springs. There will go with it a gold mounted and jeweled naval sword presented to Admiral Evans, through Admiral Thomas, by the patriotic fraternities of the city, including the Grand Army of the Republic, the Confederate veterans and Spanish war veterans. To Admirals Thomas, Sperry and Emery gold medals commemorative of their visit were presented, and there was also a medal for Captain R. R. Ingersoll, who served as chief of staff to Admiral Evans from Hampton Roads to Magdalena bay.

WILL BE FOR TAFT.

Minnesota Delegation to Republican Convention.

Minneapolis, April 16.—It is practically certain that Minnesota's twenty-two votes in the national Republican convention will be registered in the Taft column. The state convention to be held here will elect four delegates-at-large and instruct them for Taft, sixteen were added to the list by the district conventions Wednesday and two had been placed in the Taft column last week.

The state convention will meet at the Auditorium here. The business is to elect four delegates and four alternates-at-large to the national Republican convention at Chicago. F. B. Kellogg of St. Paul, W. W. Heffelfinger of Minneapolis and E. B. Hawkins of Duluth have no opposition. F. E. Putnam of Blue Earth is opposed by W. B. Parsons of Winona, but Putnam has the Second district solidly behind him and claims to have some support in the First district. That the Second district gets one of the places was made possible by the action of F. W. Hunt of Mankato, who was a candidate but withdrew in order to give the Second district solid to Putnam.

The convention will instruct the delegates for Taft, although there has been talk of efforts to stampede the convention for a Roosevelt third term resolution. But the delegates are nearly all instructed for Taft and there is scarcely a possibility of any other programme being carried through. There will be but five to ten La Follette men in the convention.

The programme for the convention is being worked out. S. P. Snider of Minneapolis will be temporary chairman and R. P. Brown of St. Cloud will be elected permanent chairman.

M. D. Munn of St. Paul will be chairman of the committee on resolutions.

There has been considerable discussion as to the feasibility of presenting a tariff revision resolution, but this is not likely. The sentiment seems to be in favor of waiting until the national platform has been adopted.

Dr. A. B. Cole, as chairman of the state central committee, will call the convention to order.

## McCARREN IS OUSTED

Brooklyn Leader Unseated in New York Convention.

THREATENS TO GET REVENGE

Unusual and Picturesque Circumstances Attend His Speech—Close of Convention Marked by Scenes of Disorder Verging Upon a Riot.

New York, April 16.—State Senator Patrick H. McCarren, leader of the Kings county Democracy, was unseated as a delegate to the party's state convention in Carnegie hall to select representatives to the Denver national convention, after a two-days' bitter contest before the committee on credentials. He was alternately greeted with cheers and derisive cries when he finally addressed the convention and once was insulted by a man on the platform near him. The senator told this man he would talk to him outside the hall. Amid scenes tense and dramatic in the extreme he first appealed to the convention to refuse to sanction the majority report of the committee and followed this up with deliberate defiance of those who, he said, were excluding him from the place in the party councils to which he had been chosen by his Democratic constituents. He threatened the Tammany delegates with the statement that if the plans to put him outside the party lines were carried out no one in the convention hall would live long enough to see the election of another Democratic mayor of New York city.

The senator's speech was attended by unusual and picturesque circumstances. From the time he entered the hall he received the cheers of his loyal followers, but the majority were against him and the counter-demonstrations were greater in volume. Nevertheless he made his fight calmly and courageously. The proceedings were attended with much confusion and disorder in which both the McCarren forces and their opponents participated. The protracted two days for the committee's report affected the delegates and they showed the strain during the long roll call on the adoption of the majority report.

Business Almost Forgotten.

The business for which the convention was assembled, the selection of delegates to the national convention, the nomination of presidential electors and the adoption of a platform, was almost forgotten in the excitement over the McCarren contest.

When the vote was announced McCarren with his followers rose and left the hall while their friends in the gallery gave them a parting cheer. Another cheer greeted Bird S. Coler of Kings as he and his fellow delegates entered to replace the McCarren men. Senator McCarren said that he would carry his fight to the Denver convention.

After the settlement of the McCarren and other contests the convention proceeded with its task and named delegates and electors and adopted a platform.

Delegates-at-large—Alton B. Parker, New York; Charles F. Murphy, New York; Lewis Nixon, New York; Charles Froeh, Brooklyn.

The delegation is uninstructed.

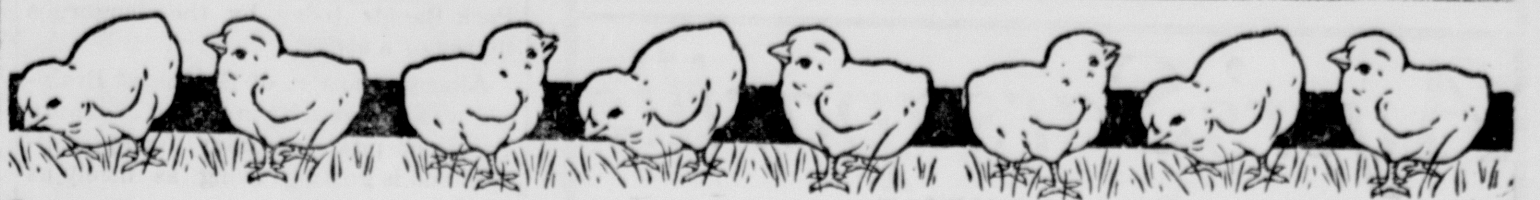

A resolution that the delegates to the national convention be instructed to adopt the unit rule was adopted.

After the platform had been adopted and the delegates named, a scene of wild disorder followed the announcement of the names of the new state committee. Delegates from several districts protested that the names read were not those selected. The chairman replied that the question was whether the convention, through its own committee, should be empowered to name the new state committee. The aisles were crowded with delegates denouncing the proposition. Order could not be restored, the delegates refusing to be seated and the police for many minutes were powerless to keep them quiet. The excitement was greater than during the McCarren incident. At the height of the disturbance the sergeant-at-arms was thrown from the platform. The committee's report was finally declared carried.

Harry W. Walker, one of Bryan's most enthusiastic supporters in New York, declared he would issue a call for another state convention to send a contesting delegation to Denver.

Fleet Will Not Visit Hong Kong.

Washington, April 16.—Because of lack of time the government has felt it necessary to decline an invitation extended by Great Britain that the Atlantic battleship fleet stop at Hong Kong on its trip around the world. It is stated that when the fleet reaches the Mediterranean it may be divided among various ports in those waters and then reassemble at some central place, probably Gibraltar, to prepare for the homeward voyage.

## LOSS IS VERY HEAVY

Flood in Montana Destroyed Valuable Property.

AT LEAST TWO LIVES LOST

Several Houses Demolished, Hundreds of Head of Live Stock Drowned and Many Miles of Railroad Track Washed Away.

Helena, Mont., April 16.—With several houses destroyed in the little town of Craig, forty-six miles north of Helena, hundreds of head of cattle and other live stock drowned, and the Great Northern railroad tracks washed away for miles, the loss from the flood caused by the breaking of the great seventy-foot dam at Hauser lake, it is conservatively estimated, will be approximately \$1,000,000, which includes the damage to the dam.

After making a careful examination of the dam site since the water has receded, A. H. Gerry, Jr., general manager, is of the opinion that the wrecked structure can be rebuilt at a cost of probably less than \$250,000. That the dam will be rebuilt at once and the construction of the third dam at Wolf creek, which was approved by Secretary of War Taft Tuesday, will not be delayed, is assured by a telegram received in Helena from former Governor Samuel T. Hauser, president of the Helena Power Transmission company, who is now in New York.

A special from Great Falls says that the water is slowly rising and that it goes three feet higher the chance of saving the Boston and Montana smelter will be dubious. A relief train sent out over the Great Northern from Great Falls was forced to return after going only a short distance. A similar expedition was sent from Helena but went only a short distance beyond Wolf Creek, twenty-three

miles distant, where a large truss bridge had been washed out. Although it is impossible at this time to estimate the amount of track destroyed, railroad experts say that train connection at Great Falls will be impossible during the next two weeks.

Carl Ide, smelter employee at Great Falls, was swept over the dam and drowned while working to save the property from destruction.

The Black Eagle dam across the Missouri at Great Falls was blown up with dynamite in order to prevent the destruction of the Boston and Montana smelter. This materially helped, and serious danger from the flood is now probably over. A smelter workman, name unknown, was drowned when the dam was dynamited.

Physician Cuts His Throat.

New York, April 16.—Dr. Alexander B. McDowell, a physician, cut his throat with a razor and died soon afterward. Just before death he urged his housekeeper to summon medical aid. He was forty-four years old, a widower, and had a son of five years. He appeared in good health and spirits.

HEAVY GALE IN CHICAGO.

Costs the Lives of Two Men by Upsetting Their Boat.

Chicago, April 16.—A heavy gale which attained a velocity of forty-seven miles an hour struck this city and raged several hours without lessening of its violence. It cost the lives of two men, Joseph Sachs, a liquor dealer, and his nephew, Arthur Freud, both being drowned by the upsetting of their boat in Lake Michigan off the foot of Wilson avenue.

Both men went down in sight of Mrs. Sachs and the four sisters of Freud, who saw the gale approaching and vainly attempted to signal the men. When they failed in this they telephoned to the police and to the lifesaving station. The crew from the latter place at once set out, but it was twelve miles to pull through a rapidly rising sea and against the wind. When they reached the spot, the men and boat had disappeared.

Off Jackson park eleven men were rescued by the lifesaving crew. Seven

of the men were aboard the Flying Dutchman, a sloop that was two miles off Thirty-sixth street when the gale came sweeping up the lake. The boat was being carried out into the lake and must have been lost had not the lifesaving crew, after a desperate struggle with the wind and waves, managed to tow the boat into the Jackson park harbor.

Two overturned boats, to each of which two men were clinging, were rescued later by the Jackson Park lifesaving crew.

The wind did much damage in all parts of the city to trees and shrubbery, and in the business sections tore signs and smashed plate glass windows. While forty-seven miles an hour was the velocity reported by the weather bureau, down on the street level, particularly between some of the high buildings, the force of the gale was much greater, and at several of the more dangerous crossings details of police were stationed to aid women and children in crossing the streets. The lake was exceedingly rough, and considerable havoc was wrought along the shore to boats and breakwaters. At the foot of Twenty-eighth street a portion of the piling was torn out, and the shore badly washed.

NO MORE BODIES FOUND.

Death List of Chelsea Fire Now Totals Seven.

Boston, April 16.—Although a diligent search was kept up all day in the ruins of the hundreds of structures destroyed in the Chelsea fire last Sunday, no more bodies of victims of the disaster were found and the death list remains at six. A skeleton which was unearthed on Grove street proved to be a wired model used presumably by a physician or medical student and the rumor of a second body being found turned out to be untrue.

There was a seventh victim of the fire, however, in the death at the Soldiers' home in Chelsea of Frank Mahan, aged fifteen years, who died as the result of being kicked by an excited horse during the fire.

The relief fund has passed the \$140,000 mark, and the subscriptions are coming in rapidly.

The wind did much damage in all parts of the city to trees and shrubbery, and in the business sections tore signs and smashed plate glass windows. While forty-seven miles an hour was the velocity reported by the weather bureau, down on the street level, particularly between some of the high buildings, the force of the gale was much greater, and at several of the more dangerous crossings details of police were stationed to aid women and children in crossing the streets. The lake was exceedingly rough, and considerable havoc was wrought along the shore to boats and breakwaters. At the foot of Twenty-eighth street a portion of the piling was torn out, and the shore badly washed.

**NO MORE BODIES FOUND.**

**Death List of Chelsea Fire Now Totals Seven.**

Roston, April 16.—Although a diligent search was kept up all day in the ruins of the hundreds of structures destroyed in the Chelsea fire last Sunday, no more bodies of victims of the disaster were found and the death list remains at six. A skeleton which was unearthed on Grove street proved to be a wired model used presumably by a physician or medical student and the rumor of a second body being found turned out to be untrue.

There was a seventh victim of the fire, however, in the death at the Soldiers' home in Chelsea of Frank Mahan, aged fifteen years, who died as the result of being kicked by an excited horse during the fire.

The relief fund has passed the \$140,000 mark, and the subscriptions are coming in rapidly.

#### POLICEMAN KILLED.

Philadelphia Officer Meets Death Under Peculiar Circumstances.

Philadelphia, April 10.—Thomas A. Gordon, a policeman, was shot and killed under peculiar circumstances. He went into the store of Henry Siedeman to exchange a revolver. Mrs. Siedeman waited upon him. She says that while examining a revolver he pulled the trigger of the weapon, which was discharged, the bullet striking Gordon in the neck. He staggered from the store to the street, where Samuel German says the wounded man exclaimed: "She shot me." Siedeman, his wife and German were all arrested as a result of this statement, pending an investigation.

Later Mrs. Siedeman confessed to Superintendent of Police Taylor that she shot Gordon. She said the shooting was accidental and that she had first stated that Gordon had shot himself because she was afraid she would be arrested. She was permitted to go home, but is under surveillance of the police.

#### AGAINST THE ALDRICH BILL

Arguments Made Before House Banking Committee.

Washington, April 16.—The banking and currency committee of the house continued to hear arguments against the Aldrich financial bill and also the measure introduced by Mr. Vreeland of New York, upon which the Republican members of the house are to caucus next week. The currency commission of the American Bankers' association, representatives of the Merchants' association of New York and other bankers from different sections of the country were severe in their denunciation of the Aldrich bill. It seemed to be the general opinion among the speakers that if a credit currency measure could not be passed at this session it would be wise on the part of congress to let the matter go over until the next session, in the meantime providing for a commission to consider the whole financial question and formulate a measure for consideration next winter.

#### Give Him a Chance.

A now famous physician relates that early in his career in the city where he was located there resided an elderly physician who was always ready to give him wholesome advice. One morning the young practitioner was called to visit a man who was very sick. On his way he happened to meet his old friend, the doctor, and, as usual, he had something of importance to say. He drew it out so long, however, that the younger man grew impatient and finally said: "Doctor, you will have to excuse me. I am on my way to visit a gentleman who is said to be dangerously ill."

"Oh," was the unexpected reply, "give the man a chance." And the old fellow resumed his interrupted talk.

#### McKinley Home Sold.

Canton, O., April 16.—The home of the late President McKinley has been formally transferred to Mrs. Rose C. Klorer of Canton, the price being \$21,000. Personal effects of the late president, including many presents received by him during the famous 1896 front porch campaign and later while in the White House, are being divided among the five heirs of the president and will be widely scattered.

#### Bandits Attack Korean Village.

Tokio, April 16.—Advices received here say that four Koreans were killed in a recent encounter near Seoul, when 200 bandits attacked a village. The bandits were driven off. The insurgents are working in bands of 200 or less and the total number of active revolutionists does not exceed 4,000, according to the reports.

A big time is promised at the Y. M. C. A. Friday, April 17 at 8 P. M. A debate on the question Resolved—"That women should be allowed the right of suffrage" will be affirmed by C. C. Sorenson and Jim Templeton and denied by G. S. Swanson and Fred Du Bois. The affirmative will select one judge and the negative another and these two judges will confer and select the third.

The debaters have worked long and energetically and have studied the great question of woman suffrage from its incipency down to the present time and in so doing have delved into the historic records of "all ages." This does not necessarily indicate, however, that these gentlemen are "forgetting" the ladies of the present time.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. **HATCHERY SITE IS SECURED**

**State Fish and Game Commission Has Accepted Release of Mineral Rights**

**J. P. SAUNDERS TO BE FOREMAN**

**Brainerd Man Was Selected by the Commission to Have Charge of Hatchery**

St. Paul, April 16.—The state game and fish commission has accepted the release of the Pine Tree Lumber company of its mineral rights in the land selected for the fish hatchery to be erected at Deerwood, seventeen miles east of Brainerd. J. P. Saunders, of Brainerd, formerly deputy game warden, has been appointed by the commission as foreman of the new hatchery and the commission will now purchase the land and proceed with the erection of such buildings as the appropriation available will permit.

The legislature in 1907 appropriated \$6,000 for this hatchery. The cost of the site including surveys, clearing, preparations, etc., will, it is estimated, cost about \$1,200, leaving nearly \$5000 to be expended in the dam, buildings, etc. This will not enable the commission to complete the hatchery, but it will be sufficient to get it started and the extension of the institution will be subject to the provisions made by succeeding legislatures.

The many Brainerd friends of Mr. Saunders will be glad to learn that he has secured the position of foreman, at the new hatchery, which is a much more pleasant one than that of deputy game warden. He is said to be one of the most skilled men in the service of the state along these lines and will undoubtedly make a fine record at Deerwood.

**DANGER OF FIRES**

**Much Danger to Property Because of Carelessness in Setting Fires in the Woods These Days**

Too much care cannot be exercised in avoiding danger from fires this spring. Everything is dry as tinder and a fire once started will spread very rapidly. The buildings on A. P. Riggs' farm on Lake Gilbert were close to destruction Sunday afternoon. Neighbors got there and succeeded in checking the flames when they were within less than six feet of the barn. There have been many fires in the woods around Brainerd as could be seen from the smoke in various directions. So far no serious loss has been reported, but this is due more to good luck than to care on the part of those putting out fires. There has been so much danger that the Minnesota & International railroad company has issued special orders to train crews to report all fires to the section men and to the superintendent, notifying the latter by wire.

New York, April 16.—Convinced that William Jaynes, who died last fall at Hempstead, L. I., had possessed a considerable amount of money, the executors of his will made a thorough search of his property and finally decided to tear down the dilapidated cottage in which the man had spent his life. After a portion of the wall had been taken down the workmen found two bags, one containing \$5,000 in gold, the other \$6,000 in bank notes. Later they discovered bank books which will bring the value of the estate up to \$25,000.

SPRING

SUMMER

In the Spring the circulation  
of the blood  
the skin is sluggish giving it a  
pale, sallow and even muddy appearance.

In the Summer the bright sun brings tan,  
sunburn and freckles to mar  
beauty and to ruin the complexion if the skin is not  
treated in time.

In the Autumn the winds make the skin  
rough, dry, red and irritated.  
Many times the skin will become discolored and  
blotched if neglected.

In the Winter the cold makes  
the hair dry and  
brittle, contracts the pores of  
the skin and causes wrinkles.  
The contracted pores get clog-  
ged, forming pimples, black-  
heads and blemishes.

### E. Burnham's Beauty Treatment for Winter

To prevent the hair getting  
brittle first cleanse the hair  
and scalp from all dandruff.  
excessive oily secretions are  
foreign matter by using E.  
Burnham's Antiseptic Liquid  
Shampoo, then apply the Hair  
and Scalp Tonic. This will  
keep the hair soft and beau-  
tifully glossy. To prevent  
wrinkles and clogged pores,  
massage the skin as directed  
in the Burnham booklet—  
"HOW TO BE BEAUTIFUL."

Do not use soap as it  
will make the skin chapped when  
exposed to the winds. To  
cleanse the skin, apply as di-  
rected, E. Burnham's Cucum-  
ber and Elder Flower Cream.  
It will remove the waxy de-  
posits that clog the pores and  
render the skin soft, pure and  
beautifully clean. If the pores  
have become enlarged a few  
applications of the Coarse Pore  
Lotion will immediately reduce  
them to their normal condition.

Any woman can get FREE SAMPLES of Cucumber Cream,  
Hair and Scalp Tonic and a copy of the Beauty Booklet by send-  
ing ten cents (to cover mailing expense) to E. Burnham, 70 and  
72 State Street, Chicago, or by calling on the local dealer. By  
calling on the dealer you will save the cost of mailing and in  
addition you can inspect the various E. Burnham Toilet Requi-  
sites and see the original photos illustrating the wonderful  
results of Beauty Treatments.

#### Robber Quickly Captured.

Janesville, Wis., April 16.—Gus  
Johnson, eighteen years old, of Chi-  
cago, robbed the dressing rooms of  
Blanche Walsh's company playing  
here, taking \$1,200 worth of money  
and jewelry. Within twenty minutes  
Johnson was arrested in a saloon and  
all the property was recovered.

#### Another Body Found.

West Newton, Pa., April 16.—Anoth-  
er body, making a total of 268, was  
found in the Jacobs creek mine, where  
a disastrous explosion occurred four  
months ago. It is impossible to iden-  
tify it positively. Two other bodies  
are still missing.

## GUARD FOR MARINERS

Plan to Prevent Shipwrecks by  
Wireless Signals.

HIGHLY PRAISED BY SAVANTS.

Frenchman Proposes to Communicate  
With Ships In All Seas From Paris  
Eiffel Tower—To Tell Exact Longi-  
tude Without Observations by Sun.

If the proposal presented to the  
French Academy of Sciences at Paris  
a few days ago by Bouquet de La  
Grye be adopted, the Eiffel tower will  
play such an important role in the  
world's shipping that wrecks through  
miscalculation of longitude will here-  
after be rendered impossible.

The venerable savant, according to a  
wireless telegraph dispatch from Paris  
to the New York Times, purposes to  
equip the tower so that it can send the  
exact time according to the meridian  
of either Paris or Greenwich to every  
ship in the world equipped with wire-  
less telegraphy.

He says that a wireless plant of suf-  
ficient force can be established to send  
Hertzian waves completely around the  
world. By a prearranged signal either  
noon or midnight would be indicated,  
and ships would thus be able to regu-  
late their own chronometers and learn  
the exact longitude without taking ob-  
servations by the sun.

The proposal has already been ac-  
cepted in principle, and experiments  
will first be undertaken with the con-  
currence of French ships in both the  
Atlantic and the Mediterranean. It is  
purposed to send the hour of midnight  
according to Paris time, this being  
preferable to noon owing to the ab-  
sence of local disturbances.

Among those who applauded the pro-  
posal were Simon Newcomb, the emi-  
nent astronomer of Washington, and  
Alexander Agassiz of Cambridge, Mass.  
Both were enthusiastic in praise of the  
plan and said that undoubtedly it  
would receive the support of officials  
and scientists in the United States.

Experiments are also now in progress  
with a wireless telephony apparatus  
on the Eiffel tower. The results of  
these experiments are thus far indeci-  
sive, but important results are hoped  
for in the near future.

The tower continues to furnish the  
means of rapid and sure wireless com-  
munication between the government  
and the army in Morocco. Should La  
Grye's proposal be put into execution,  
however, it is probable that a new  
wireless post will be installed by the  
French government on some lofty  
mountain peak, possibly in the Canary  
Islands.

From the top of the tower, 830 feet  
above the pavement, there fall into  
the Avenue du Suffren four cables end-  
ing in a rude inclosure, within which  
are a number of rough sheds composed  
of boards. The few visitors who are  
allowed to enter the inclosure find  
within the sheds apparatus similar to  
that which is installed on Long Island  
sound steamers for the purpose of  
maintaining wireless communication  
with the shore. But of course every-  
thing is on a much larger scale—the  
condenser is a huge thing and the coil  
of wire for resistance is gigantic—al-  
though the receiver is a far more deli-  
cate instrument than that used on the  
sound steamers, and the man who  
manipulates it must be ever alert to  
catch the faintest vibrations produced  
by the Hertzian waves flowing from  
the masthead of the cruiser Kleber,  
hundreds of miles away to the south,  
off Casablanca. These waves leave the  
frigate with a force of 40,000 volts, but  
it requires a most delicate instrument  
to perceive them when they reach the  
Eiffel tower.

The telephone with which, at cer-  
tain times in the day, the tower staff  
experiment—for the night is best fitted  
for the transmission of the govern-  
ment messages between the Quai d'Or-  
say and Casablanca—is the invention  
of M. Branly, who has lately succeeded  
in directing torpedoes by Hertzian  
waves so that their maneuvers cannot  
be interfered with by the enemy. It  
is much more simple than the wireless  
telegraphic installation, and messages  
by it have already been sent as far as  
Lyons, although uninterrupted com-  
munication has not been maintained.

#### Sanitary Test With Dyed Rats.

Colored rodents are to be introduced  
by Dr. Blue so that he may better  
study the sanitary situation in San  
Francisco. He wants to know whether  
rats are migrating from one district  
of the city to another and if so how rap-  
idly such migrations are taking place.  
For this purpose he has ordered that a  
number of rats shall be dyed red and  
liberated in one district, and green ones  
are to be liberated in another.

#### Her Easter Bonnets.

It was at the Easter service  
When the lilies hid the Latin  
In the pew we sat together.  
She was gowned in amber satin,  
And she shared her hymn book with  
me.

But my eyes were not upon it.  
I was gazing, fascinated,  
At her wondrous Easter bonnet.  
It was crushed and curved and crinkled  
Into strange and sudden angles.  
It was swathed with yards of chiffon.  
It was hung with glittering tangles.  
There were bows of lace and ribbon  
And a dozen buckles on it,  
And a wreath of crimson roses  
Crowned that stunning Easter bonnet.

I had meant to pop the question  
Walking home from church that  
morning.  
And the ring was in my pocket.  
But her chapeau was a warning.  
For I knew the modest income  
That I made by writing sonnets  
Never would suffice to keep her  
In those gorgeous Easter bonnets.

## COLUMBUS DEFEATS ST. PAUL

Champions Win First Game of the  
American Association Season.

Columbus, O., April 16.—After the  
pennant won last year was raised  
amid great enthusiasm, the Columbus  
champions of the American associa-  
tion defeated St. Paul by a score of  
5 to 4. The home team bunched hits  
in the fourth inning, when St. Paul in-  
fielders made three errors, and ob-  
tained their five runs, which lead the  
victors were unable to overcome.

Other games in the American asso-  
ciation resulted as follows:  
At Louisville, 1; Milwaukee, 2.  
At Indianapolis, 4; Kansas City, 2.  
National League.

At St. Louis, 1; Pittsburg, 3—ten in-  
nings.

### SHOOTS HIS DAUGHTER.

New York Doctor Then Ends His  
Own Life.

Asheville, N. C., April 16.—Dr. O. O.  
Swinney, who recently came here from  
New York, shot and fatally wounded  
his sixteen-year-old daughter Nellie  
and then killed himself in the recep-  
tion room of a girls' boarding school  
in this city.

It is said Dr. Swinney became en-  
raged because his daughter took part  
in an April fool prank, when she, to-  
gether with a number of other stu-  
dents, absented themselves from  
school.

It is said Swinney had been in poor  
health for some time and recently, it  
is alleged, his mind had been un-  
balanced.

#### Resulted in Ten Deaths.

St. Petersburg, April 16.—A sensa-  
tional prison-breaking is reported from  
Penza, which resulted in ten deaths.  
Eleven political prisoners attacked  
and stabbed two wardens to death.  
They then threw a number of bombs  
and escaped from the prison in the  
confusion. Guards hastily gave pur-  
suit and shot eight of the men dead.

#### Drug Store Robbed.

St. Paul, April 16.—Two masked  
men held up the drug store of Karl L.  
Fieseler, Hampton and Raymond ave-  
nues, shot the clerk and robbed the  
cash drawer of about \$50. The clerk  
was shot in the arm and not danger-  
ously wounded. The robbers escaped.

#### For National Bison Range.

Washington, April 16.—A bill has  
been passed by the senate to establish  
a permanent national bison range of  
12,800 acres on the Flathead Indian  
reservation, Montana, the range to be  
enclosed and become the home of the  
largest herd of bison in existence.

#### Brakeman Killed.

Duluth, April 16.—John O'Neill of  
Duluth a brakeman in the employ of  
the Duluth, Missabe and Northern  
railroad, was killed at Saginaw Sta-  
tion, thirty-five miles from here. He  
attempted to board a freight train in  
motion and fell under the wheels.

### TELEGRAPHIC BREVITIES.

Fire at Nary, Minn., destroyed six  
buildings, entailing a loss of about  
\$16,000.

The men's missionary convention of  
the Methodist church of Wisconsin  
has opened a three-days' meeting at  
Milwaukee.

John H. Mandigo, for twenty years  
the head of the sporting department  
of the New York Sun, is dead, aged  
fifty years.

Fire of mysterious origin damaged  
the new building occupied by the  
Weum-Watt company, wholesale no-  
tions and men's furnishings, Minneap-  
olis, to the extent of \$30,000.

### FIGHTING IN NICARAGUA.

About Sixty Whites and Indians Have  
Been Killed.

New Orleans, April 16.—A report  
that about sixty whites and Indians  
have been killed in Nicaragua in  
bloody bush warfare waged by Mos-  
quito Indians was brought here by W.  
R. Coffman of Bloomington, Ill., who  
was a passenger on a steamer from  
Central America. The death list of  
whites numbers about twenty.

The fighting started over a month  
ago on the Caribbean coast, where the  
Indians live.

Since then, Mr. Coffman said, many  
troops have been sent into the Mos-  
quito district and several skirmishes  
have occurred and the Indians have  
attacked two towns.

### Words of Praise

For the several ingredients of which Dr.  
Pierce's medicines are composed, as given  
by leaders in all the several schools of  
medicine, should have far more weight  
than any amount of non-professional tes-  
timonials. Dr. Pierce's Favorite Prescrip-  
tion has the badge of HONESTY on every  
bottle-wrapper, in a full list of all its in-  
gredients printed in plain English.

If you are an invalid woman and suffer  
from frequent headache, backache, gnaw-  
ing distress in stomach, periodical pains,  
disagreeable, catarrhal, pelvic drain,  
dragging down distress in lower abdomen  
or pelvis, perhaps dark spots or specks  
dancing before the eyes, faint spells and  
kindred symptoms caused by female weak-  
ness, or the derangement of the feminine  
organs, you can not do better than take  
Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operat-  
ing table may be avoided by the timely  
use of "Favorite Prescription" in such  
cases. Thereby the obnoxious examina-  
tions and local treatments of the family  
physician can be avoided and a thorough  
course of successful treatment carried out  
in the privacy of the home. "Favorite  
Prescription" is composed of the very best  
native medicinal roots known to medical  
science for the cure of woman's peculiar  
ailments, contains no alcohol and no  
harmful or habit-forming drugs.

Do not expect too much from "Favorite  
Prescription"; it will not perform mir-  
acles; it will not dissolve or cure tumors.  
No medicine will. It will do as much to  
establish vigorous health in most weak-  
nesses and ailments peculiarly incident to  
women as any medicine can. It must be  
given a fair chance by perseverance in its  
use for a reasonable length of time.

You can't afford to accept a secret reme-  
dy as a substitute for this remedy of  
known composition.

Sick women are invited to consult Dr.  
Pierce, by letter, free. All correspond-  
ence is guarded as sacredly secret, and  
womanly confidences are protected by  
professional privacy. Address Dr. R. V.

### Assisted Men to Register Falsely.

New York, April 16.—Frank Duffy,  
an election district captain who was  
convicted of having assisted thirty  
men to register falsely at the last elec-  
tion in the Seventeenth assembly dis-  
trict, was sentenced to not less than  
two years and three months and not  
more than four years and three  
months in prison. The punishment  
was meted out notwithstanding more  
than 200 letters asking for clemency  
were received.

## Freed from Piles

### THE JOY OF IT.

The utter misery and despair of the sufferer  
from piles or hemorrhoids can never be de-  
scribed. Not only the intense itching and  
stinging, not only the dread of a surgical  
operation, but the whole system seems to be  
undermined by this horrible disease.

The joy which cured ones experience on  
being freed from itching, bleeding and protrud-  
ing piles is told in thousands of letters received  
in regard to

## Dr. A. W. Chase's Ointment

You need not tell the writers of these letters  
that there is a case of piles which Dr. A. W.  
Chase's Ointment will not cure, for they will  
not believe it. They alone know how they  
suffered, and also know that this ointment  
cured them. It brings relief at once. 50 cts.  
a box, at all dealers or Dr. A. W. Chase  
Medicine Co., Buffalo, N. Y.

Mr. John Auer, East 5th St., Marys-  
ville, Ohio, states:  
"For twenty years I could get no relief from  
itching piles, either from doctors' or other treat-  
ments. One box of Dr. A. W. Chase's  
Ointment positively cured them, to stay cured  
and the relief and comfort is too great to be  
described."

SPRING

SUMMER

In the Spring the circulation  
of the blood in  
the skin is sluggish giving it a  
pale, sallow and even muddy appearance.

In the Summer the bright sun brings tan,

In the Autumn the winds make the skin

Many times the skin will become discolored and

In the Winter the cold makes  
the hair dry and  
brittle, contracts the pores of

The contracted pores get clog-

excessive oily secretions and  
foreign matter by using E.  
Burnham's Antiseptic Liquid  
Shampoo, then apply the Hair  
and Scalp Tonic. This will  
keep the hair soft and beau-  
tifully glossy. To prevent  
wrinkles and clogged pores,  
massage the skin as directed  
in the Burnham booklet—  
"HOW TO BE BEAUTIFUL."

Do not use soap as it  
will make the skin chap when  
exposed to the winds. To  
cleanse the skin, apply as di-  
rected, E. Burnham's Cucum-  
ber and Elder Flower Cream.  
It will remove the waxy de-  
posits that clog the pores and  
render the skin soft, pure and  
beautifully clean. If the pores  
have become enlarged a few  
applications of the Coarse Pore  
Lotion will immediately reduce  
them to their normal condition.

Any woman can get FREE SAMPLES of Cucumber Cream,  
Hair and Scalp Tonic and a copy of the Beauty Booklet by send-  
ing ten cents (to cover mailing expense) to E. Burnham, 70 and  
72 State Street, Chicago, or by calling on the local dealer. By  
calling on the dealer you will save the cost of mailing and in  
addition you can inspect the various E. Burnham Toilet Requi-  
sites and see the original photos illustrating the wonderful  
results of Beauty Treatments.

#### Robber Quickly Captured.

Janesville, Wis., April 16.—Gus  
Johnson, eighteen years old, of Chi-  
cago, robbed the dressing rooms of  
Blanche Walsh's company playing  
here, taking \$1,200 worth of money  
and jewelry. Within twenty minutes  
Johnson was arrested in a saloon and  
all the property was recovered.

#### Another Body Found.

West Newton, Pa., April 16.—Anoth-  
er body, making a total of 268, was  
found in the Jacobs creek mine, where  
a disastrous explosion occurred four  
months ago. It is impossible to iden-  
tify it positively. Two other bodies  
are still missing.

## GUARD FOR MARINERS

Plan to Prevent Shipwrecks by  
Wireless Signals.

HIGHLY PRAISED BY SAVANTS.

Frenchman Proposes to Communicate  
With Ships in All Seas From Paris  
Eiffel Tower—To Tell Exact Longi-  
tude Without Observations by Sun.

If the proposal presented to the  
French Academy of Sciences at Paris  
a few days ago by Bouquet de La  
Grye be adopted, the Eiffel tower will  
play such an important role in the  
world's shipping that wrecks through  
miscalculation of longitude will here-  
after be rendered impossible.

The venerable savant, according to a  
wireless telegraph dispatch from Paris  
to the New York Times, purposes to  
equip the tower so that it can send the  
exact time according to the meridian  
of either Paris or Greenwich to every  
ship in the world equipped with wire-  
less telegraphy.

He says that a wireless plant of suf-  
ficient force can be established to send  
Hertzian waves completely around the  
world. By a prearranged signal either  
noon or midnight would be indicated,  
and ships would thus be able to regu-  
late their own chronometers and learn  
the exact longitude without taking ob-  
servations by the sun.

The proposal has already been ac-  
cepted in principle, and experiments  
will first be undertaken with the con-  
currence of French ships in both the  
Atlantic and the Mediterranean. It is  
purposed to send the hour of midnight  
according to Paris time, this being  
preferable to noon owing to the ab-  
sence of local disturbances.

Among those who applauded the pro-  
posal were Simon Newcomb, the emi-  
nent astronomer of Washington, and  
Alexander Agassiz of Cambridge, Mass.  
Both were enthusiastic in praise of the  
plan and said that undoubtedly it  
would receive the support of officials  
and scientists in the United States.

Experiments are also now in progress  
with a wireless telephony apparatus  
on the Eiffel tower. The results of  
these experiments are thus far indeci-  
sive, but important results are hoped  
for in the near future.

The tower continues to furnish the  
means of rapid and sure wireless com-  
munication between the government  
and the army in Morocco. Should La  
Grye's proposal be put into execution,  
however, it is probable that a new  
wireless post will be installed by the  
French government on some lofty  
mountain peak, possibly in the Canary  
Islands.

From the top of the tower, 830 feet  
above the pavement, there fall into  
the Avenue du Suffren four cables end-  
ing in a rude inclosure, within which  
are a number of rough sheds composed  
of boards. The few visitors who are  
allowed to enter the inclosure find  
within the sheds apparatus similar to  
that which is installed on Long Island  
sound steamers for the purpose of  
maintaining wireless communication  
with the shore. But of course every-  
thing is on a much larger scale—the  
condenser is a huge thing and the coil  
of wire for resistance is gigantic—al-  
though the receiver is a far more deli-  
cate instrument than that used on the  
sound steamers, and the man who  
manipulates it must be ever alert to  
catch the faintest vibrations produced  
by the Hertzian waves flowing from  
the masthead of the cruiser Kleber,  
hundreds of miles away to the south,  
off Casablanca. These waves leave the  
frigate with a force of 40,000 volts, but  
it requires a most delicate instrument  
to perceive them when they reach the  
Eiffel tower.

The telephone with which, at cer-  
tain times in the day, the tower staff  
experiment—for the night is best fitted  
for the transmission of the govern-  
ment messages between the Quai d'Or-  
say and Casablanca—is the invention  
of M. Branly, who has lately succeeded  
in directing torpedoes by Hertzian  
waves so that their maneuvers cannot  
be interfered with by the enemy. It  
is much more simple than the wireless  
telegraphic installation, and messages  
by it have already been sent as far as  
Lyons, although uninterrupted com-  
munication has not been maintained.

#### Sanitary Test With Dyed Rats.

Colored rodents are to be introduced  
by Dr. Blue so that he may better  
study the sanitary situation in San  
Francisco. He wants to know whether  
rats are migrating from one district  
of the city to another and if so how rap-  
idly such migrations are taking place.  
For this purpose he has ordered that a  
number of rats shall be dyed red and  
liberated in one district, and green ones  
are to be liberated in another.

#### Her Easter Bonnets.

It was at the Easter service  
When the lilies hid the Latin  
In the pew we sat together.  
She was gowned in amber satin,  
And she showed her hymn book with  
me.

But my eyes were not upon it.  
I was gazing, fascinated,  
At her wondrous Easter bonnet.  
It was crushed and curved and crinkled  
Into strange and sudden angles.  
It was swathed with yards of chiffon.  
It was hung with glittering spangles.  
There were bows of lace and ribbon  
And a dozen buckles on it.  
And a wreath of crimson roses  
Crowned that stunning Easter bonnet.

I had meant to pop the question  
Walking home from church that  
morning.  
And the ring was in my pocket.  
But her chapeau was a warning.  
For I knew the modest income  
That I made by writing sonnets  
Never would suffice to keep her  
In those gorgeous Easter bonnets.

## COLUMBUS DEFEATS ST. PAUL

Champions Win First Game of the  
American Association Season.

Columbus, O., April 16.—After the  
pennant won last year was raised  
amid great enthusiasm, the Columbus  
champions of the American associa-  
tion defeated St. Paul by a score of  
5 to 4. The home team bunched hits  
in the fourth inning, when St. Paul in-  
fielders made three errors, and ob-  
tained their five runs, which lead the  
visitors were unable to overcome.

Other games in the American asso-  
ciation resulted as follows:  
At Louisville, 1; Milwaukee, 2.  
At Indianapolis, 4; Kansas City, 2.  
National League.

At St. Louis, 1; Pittsburg, 3—ten in-  
nings.

### SHOOTS HIS DAUGHTER.

New York Doctor Then Ends His  
Own Life.

Asheville, N. C., April 16.—Dr. O. O.  
Swinney, who recently came here from  
New York, shot and fatally wounded  
his sixteen-year-old daughter Nellie  
and then killed himself in the recep-  
tion room of a girls' boarding school  
in this city.

It is said Dr. Swinney became en-  
raged because his daughter took part  
in an April fool prank, when she, to-  
gether with a number of other stu-  
dents, absented themselves from  
school.

It is said Swinney had been in poor  
health for some time and recently, it  
is alleged, his mind had been un-  
balanced.

#### Resulted in Ten Deaths.

St. Petersburg, April 16.—A sensa-  
tional prison-breaking is reported from  
Penza, which resulted in ten deaths.  
Eleven political prisoners attacked  
and stabbed two wardens to death.  
They then threw a number of bombs  
and escaped from the prison in the  
confusion. Guards hastily gave pur-  
suit and shot eight of the men dead.

#### Drug Store Robbed.

St. Paul, April 16.—Two masked  
men held up the drug store of Karl L.  
Fieseler, Hampton and Raymond av-  
enues, shot the clerk and robbed the  
cash drawer of about \$50. The clerk  
was shot in the arm and not danger-  
ously wounded. The robbers escaped.

#### For National Bison Range.

Washington, April 16.—A bill has  
been passed by the senate to establish  
a permanent national bison range of  
12,800 acres on the Flathead Indian  
reservation, Montana, the range to be  
enclosed and become the home of the  
largest herd of bison in existence.

#### Brakeman Killed.

Duluth, April 16.—John O'Neill of  
Duluth a brakeman in the employ of  
the Duluth, Missabe and Northern  
railroad, was killed at Saginaw Sta-  
tion, thirty-five miles from here. He  
attempted to board a freight train in  
motion and fell under the wheels.

### TELEGRAPHIC BREVITIES.

Fire at Nary, Minn., destroyed six  
buildings, entailing a loss of about  
\$16,000.

The men's missionary convention of  
the Methodist church of Wisconsin  
has opened a three-days' meeting at  
Milwaukee.

John H. Mandigo, for twenty years  
the head of the sporting department  
of the New York Sun, is dead, aged  
fifty years.

Fire of mysterious origin damaged  
the new building occupied by the  
Weum-Watt company, wholesale no-  
tions and men's furnishings, Minneap-  
olis, to the extent of \$30,000.

### FIGHTING IN NICARAGUA.

About Sixty Whites and Indians Have  
Been Killed.

New Orleans, April 16.—A report  
that about sixty whites and Indians  
have been killed in Nicaragua in  
bloody bush warfare waged by Mos-  
quito Indians was brought here by W.  
R. Coffman of Bloomington, Ill., who  
was a passenger on a steamer from  
Central America. The death list of  
whites numbers about twenty.

The fighting started over a month  
ago on the Caribbean coast, where the  
Indians live.

Since then, Mr. Coffman said, many  
troops have been sent into the Mos-  
quito district and several skirmishes  
have occurred and the Indians have  
attacked two towns.

### Words of Praise

For the several ingredients of which Dr.  
Pierce's medicines are composed, as given  
by leaders in all the several schools of  
medicine, should have far more weight  
than any amount of non-professional tes-  
timonials. Dr. Pierce's Favorite Prescrip-  
tion has THE BADGE OF HONESTY on every  
bottle-wrapper, in a full list of all its  
ingredients printed in plain English.

If you are an invalid woman and suffer  
from frequent headache, backache, gnaw-  
ing distress in stomach, periodical pains,  
disagreeable, catarrhal, pelvic drain,  
dragging down distress in lower abdomen  
or pelvis, perhaps dark spots or specks  
dancing before the eyes, faint spells and  
kindred symptoms caused by female weak-  
ness, or the derangement of the feminine  
organs, you can not do better than take  
Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and opera-  
ting table may be avoided by the timely  
use of "Favorite Prescription" in such  
cases. Thereby the obnoxious examina-  
tions and local treatments of the family  
physician can be avoided and a thorough  
course of successful treatment carried out  
in the privacy of the home. "Favorite  
Prescription" is composed of the very best  
native medicinal roots known to medical  
science for the cure of woman's peculiar  
ailments, contains no alcohol and no  
harmful or habit-forming drugs.

Do not expect too much from "Favorite  
Prescription"; it will not perform mira-  
cles; it will not dissolve or cure tumors.  
No medicine will. It will do as much to  
establish vigorous health in most weak-  
nesses and ailments peculiarly incident to  
women as any medicine can. It must be  
given a fair chance by perseverance in its  
use for a reasonable length of time.

You can't afford to accept a secret pre-  
scription as a substitute for this remedy of  
known composition.

Sick women are invited to consult Dr.  
Pierce, by letter, free. All correspond-  
ence is guarded as sacredly secret, and  
womanly confidences are protected by  
professional privacy. Address Dr. R. V.  
Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best  
laxative and regulator of the bowels.  
They invigorate stomach, liver and  
bowels. One a laxative; two or three a  
cathartic. Easy to take as candy.

### Assisted Men to Register Falsely.

New York, April 16.—Frank Duffy,  
an election district captain who was  
convicted of having assisted thirty  
men to register falsely at the last elec-  
tion in the Seventeenth assembly dis-  
trict, was sentenced to not less than  
two years and three months and not  
more than four years and three  
months in prison. The punishment  
was meted out notwithstanding more  
than 200 letters asking for clemency  
were received.

## Freed from Piles

### THE JOY OF IT.

The utter misery and despair of the sufferer  
from piles or hemorrhoids can never be de-  
scribed. Not only the intense itching and  
stinging, not only the dread of a surgical  
operation, but the whole system seems to be  
undermined by this horrible disease.

The joy which cured ones experience on  
being freed from itching, bleeding and protrud-  
ing piles is told in thousands of letters received  
in regard to

## Dr. A. W. Chase's Ointment

You need not tell the writers of these letters  
that there is a case of piles which Dr. A. W.  
Chase's Ointment was not cure, for they will  
not believe it. They alone know how they  
suffered, and also know that this ointment  
cured them. It brings relief at once. 50 cts.  
a box, at all dealers or Dr. A. W. Chase  
Medicine Co., Buffalo, N. Y.

Mr. John Auer, East 5th St., Marys-  
ville, Ohio, states:

"For twenty years I could get no relief from  
itching piles, either from doctors' or other treat-  
ments. One box of Dr. A. W. Chase's  
Ointment positively cured them, to stay cured  
and the relief and comfort is too great to be  
described."
